Attendance

To receive credit for a class, a student must attend at least 90 percent of the days the class is offered. A student who attends at least 75 percent but fewer than 90 percent of the days the class is offered may receive credit for the class if he or she completes a plan, approved by the principal, which allows the student to fulfill the instructional requirements for the class. If a student is involved in a criminal or juvenile court proceeding, the approval of the judge presiding over the case may also be required before the student can receive credit for the class. If a student attends less than 75 percent of the days a class is offered or did not complete a plan approved by the principal,
the student will be referred to the campus Attendance Review Committee to determine whether there are extenuating circumstances, as described above, for the absences and how the student can regain credit
